Volunteering

- **Team Footprints**, AKGEC
- **Photography and Media Club**, AKGEC
- **Machine Learning Centre Of Excellence,** AKGEC

Experience

4/2023 - 6/2023
UI/UX Designer,Infenito Technologies
- As an Intern, I spearheaded a transformative project by redesigning the website for Infenito technologies, a dynamic and innovative company poised for exponential growth. This redesign focused on elevating the online presence to align with the company's vision and enhance user engagement.

10/2023 - Present
UI/UX Designer,GammaInnovations
- As an Intern at GammaInnovations, I led UI design projects, creating engaging Instagram graphics that elevated client brands, fostering increased recognition and online presence.

Projects

ARcadeMarket
- Designed and prototyped an AR/VR app allowing users to virtually shop in marketplaces from their homes, emphasizing intuitive UI/UX for a seamless shopping experience.

Nixi Website
- Overhauled the website for Nixi Hackathon, a dynamic event focused on innovation, with a core mission of redesigning their online platform for enhanced functionality and a seamless user experience.

InternFactory
- Designed and developed a platform similar to Internshala, providing a comprehensive online internship and job search portal for students and recent graduates. Emphasis on user-friendly UI/UX to facilitate a seamless job hunting experience.

Infenito Website
- Redesigned the website for a startup specializing in converting design concepts into functional code, with a primary focus on delivering exceptional user interfaces (UI).

Spaces
- Designed and prototyped a modern social media UI replicating the core functionalities of Twitter, focusing on an intuitive and user-friendly interface for seamless communication and information sharing.

Achievements

- Rewarded for achieving the "2nd runner-up position" in the Byteverse competition organized by Nit Patna.
